

Message from the Chairman of Council

This Strategic Plan spells out the vision and mission with clear goals and objectives, guiding principles, and action plans. The Council recognizes the existing institutional strengths, weaknesses, opportunities and threats. The SEUCO Management must take advantage of the strengths and opportunities, seek ways to reduce the weaknesses and turn threats into opportunities. Thus, the implementation of this Strategic Plan demands strategic and visionary leadership and focused planning while prioritizing goals within the institution that address the major challenges over the next ten years.

The Council is satisfied with the efforts of the University College in establishing academic programmes that emphasize dryland resource management to spur economic growth at the local, regional and national levels. The impact of SEUCO is already being felt in all levels of development. The University College endeavours to maintain its inherited

**Prof. Raphael M. Munavu, Ph.D.,
OGW, EBS, Chairman of Council**

The Strategic Plan sets out a vision for the future and the actions that need to be taken to achieve it, by offering a framework within which stakeholders can make a contribution through more efficient use of resources and by making better decisions about how to manage and develop dryland resources. For the objectives of this Strategic Plan to become a reality, we must work in partnership with other government agencies, private businesses, students and the public. Furthermore, we must all recognise the task ahead of us in mobilising resources and actively participating in the implementation process in order to change the lives of Kenyans through prudent management of our resources.

mandate of training middle level manpower through TVET certificate and diploma programmes, a mandate that is in line with Kenya's Vision 2030 Sector Plan for Education and Training 2008-2012

The Plan addresses the requirements under its legal mandate. The Council is committed to supporting its implementation.
