

MESSAGE FROM THE VICE-CHANCELLOR

Prof. Geoffrey Muluvi
Vice Chancellor

On behalf of the University staff and students, I take this great opportunity to congratulate all those who will be conferred with various Degrees and awarded Diplomas of South Eastern Kenya University (SEKU) today. I applaud you all for your remarkable achievements and also thank your parents, guardians, lecturers and all those who contributed to the successful completion of your studies.

The graduands who will be graduating today, will be the 1st graduands of South Eastern Kenya University. They will also be the ambassadors of our University and we wish them well as they join the job market. The University has prepared them adequately to be able to serve the people with distinction.

The South Eastern Kenya University has grown tremendously in the last 4 years. Student numbers have risen to about 5,000 within a short period of time. Another 1000 students will join later this year.

Development of physical infrastructure and recruitment of competent staff to provide quality teaching and other support services has also taken place to match the growth in student numbers.

I therefore sincerely wish to thank the Government of Kenya through the Ministry of Education, Science and Technology for providing the necessary resources to support the growth of the University.

I also wish to thank our development partners and the County Government of Kitui for supporting the University. The University Council and the Chancellor have continued to give the much needed strategic guidance to the University management to move the University to the next level.

We salute them and commit ourselves to implement our Strategic plan and Master Plan to make South Eastern Kenya University the University of choice in this region.

Thank you.

Prof. Geoffrey M. Muluvi, PhD
Vice-Chancellor
