

Message from the DVC – Finance, Planning and Development

Prof. Reuben Muasya
DVC - FPD

I congratulate all the graduands on this momentous occasion that marks the third graduation of SEKU. We are proud and honored to join the rest of the SEKU fraternity in celebrating this important occasion.

As a Division, this achievement presents another opportunity to reflect on the challenges

of growing our infrastructure so as to create the environment required to nurture a modern university community. SEKU has witnessed tremendous growth in infrastructure, from a humble beginning to the current state-of-the-art facilities. The University has drawn up and implemented various strategies, policies and procedures in all its operational sectors with the aim of ensuring efficiency in the attainment of both long and short term goals; one of which we are witnessing today.

The Division has taken adequate measures to ensure efficiency in financial management, procurement process, catering and accommodation services, and maintenance, to guarantee that resources are directed towards the attainment of the University's vision.

As we celebrate this day, I take this opportunity to wish our dear graduands a prosperous future in all their endeavors.
